Allowable Subject Matter

1. This Office Action is in response to the Amendment filed 08/23/04.
2. Claims 1-28 are allowed.
3. Reason for allowance

The Examiner has carefully considered the independent claims 1, 10, and 19.

The “method” and “apparatus” for “providing suggested completions for a numeric data entry” as claimed are not taught by the prior art of record. Weiner teaches a method for selecting entries from letters displayed in the edit box on a computer display. Blum teaches a user interface utilizing a variable displayed field label and an associated data entry field for displaying and entering stored database properties. However, neither Weiner nor Blum teaches “one of the plurality of search states chosen based on a number of digits in the numeric data entry, the set of rules using the numeric data entry to choose the candidate match from among an address book entry, a phone number in a call history, and non-standard dialing instructions” in specific combinations as cited in claims 1, 10, and 19. These limitations define patentably over prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
